Subject: RE: submission of vials to Mass Spec

Hi everyone, I want to remind all chemists prepping samples that they are to submit vials to the GC/MS Lab on a daily basis. For individual cases having many vials, then the vials can be held for 1-2 days and submitted together. Those cases having singeltons or 2-3 vials should be submitted as soon as they are prepped. Chemists will not hold on to vials and then submit a large number to the MS lab once a week. This is inefficient for the MS lab, and therefore the entire lab. If anyone has any questions or concerns, please let me know. CBS

Subject: Change to the GC/MS Drugs Method

To All Operators,
Due to the increasing occurrence of noscapine in heroin submissions, the Drugs method will be extended by 3 minutes to prevent this late eluter from appearing in the blanks or the next sample of a multiple.
